massage

swedish:

this classic massage can be gentle or deep and promotes relaxation overall health and well being.

deep tissue:

designed to unstick muscle fibers and connective tissue and help free your body from long standing restrictions

pre and post natal:

gentle and effective techniques are specifically designed for your special needs during and after pregnancy.

treatment:

designed for the injured you, a treatment session includes an evaluation and work focusing on specific injuries and overall pain management.

lomi lomi massage:

this hawaiian holistic healing tradition has an emphasis on spirit/body connection. fluid, rhythmic motions using the forearms as well as the hands feel like gentle waves moving over the body.

reflexology:

acupressure is applied to clear congestion and restore the vital energy flow. this treatment finishes with a detoxifying warm clay foot soak.

lymph system massage:

a light rhythmic massage that assists with the removal of toxins from the body.

infant massage: (non mobile infants)

learn how to provide relief, stimulation, relaxation, loving memorable experiences, and a deeper bond with your child through the miracle of touch. (\$25 a session)
